INTRODUCTORY

The aim of this work is to give a complete and accurate index to the public and private educational system of the United States. The information has been thoroughly revised to date, and before final printing of the book, proofs submitted to the various school officials for final revision and correction.

In the main *Geographical Classification*, in addition to the public school officials, will be found a complete list of all schools and colleges, together with information as to the kind of school, class of students admitted, religious denomination, year established, and the name of the governing head of the institution. A second complete list of all institutions is given in the *Classified Directory* in which the schools are arranged alphabetically by states, classified according to the kind of school, giving a ready reference or complete list of any particular class of institution, together with the names of the executive officers. A complete *Alphabetical Index* of all schools and colleges will be found at the back of the book from which any institution may be instantly located.

The *Public School System* is fully covered by lists of the state educational officials and county superintendents of schools, the city boards of education, city superintendents, public high schools and principals, and the directors and supervisors of special subjects. A list of the more prominent *Libraries* with the name of the librarian and number of bound volumes, is included in the present volume. An *Educational Business Directory* is also given, which will be found

of much value to the school executive as a convenient and ready reference list of reliable manufacturers and dealers supplying every known need of the school and college.

It is believed the work will be found of value to every one in any way associated with educational institutions, or engaged in educational work. Acknowledgment is made to the various State and City Superintendents of public instruction, private school officials, librarians and others for their kind co-operation and assistance in furnishing data and information necessary for the completion of the volume. While no labor has been spared in the effort to have the work as accurate as possible at the time of going to press, continual changes necessarily preclude absolute accuracy.

School officials, librarians and others will confer a favor by notifying us of changes, and by calling our attention to any inaccuracies or omissions in any department of the work.

SCHOOL TEXT-BOOK COMMISSION

Public school text-books are required by state law to be furnished free by the several towns. There is no State Text-Book Commission and no state uniformity of text-books.

ADELBERT W. GORDON, *Secretary*..... Augusta

COUNTY SUPERINTENDENTS OF SCHOOLS

Maine has no county superintendents of schools, but has what is known as the "Union Systems" of school supervision. The towns and cities of the state, of which there are 520, are combined into groups by the State Superintendent of Public Schools, and the members of the school committees of the towns in these groups elect one person to serve as superintendent of schools of the group or union, devoting his whole time to that work. The only exception to this arrangement is in the case of towns or cities having more than fifty schools. These are allowed to elect a superintendent of schools to serve that town or city alone.

SUPERINTENDENTS OF SCHOOLS

Vermont has the town system of schools. All of the schools of the state are under the direction of superintendents who give their full time to this work. In towns or cities having twenty-five or more schools the board of school directors may elect the superintendent. Other towns of the state are combined into supervisory districts. The superintendents of these districts are appointed by the State Board of Education.

Stainless and Changeless

The age-long search of institutional officials for a stainless, changeless material is satisfied in Vitrolite. More durable than marble—uniformly snow-white—sanitary—cleaned at a stroke—Vitrolite and Vitrolite alone perfectly answers the exacting requirements for table tops, counters, wainscot, toilet partitions, etc., in school lunchrooms, laboratories and toilets. Alkali and acid proof.

Samples, specifications, prices and hundreds of notable reference installations promptly on request.

GENUINE ECONOMY

is not so much a question of the price paid for an article as it is of the real value secured in return for the expenditure.

The dependably uniform excellence of quality, wholesome purity and satisfying goodness of

RICHELIEU FERNDELL and BATAVIA QUALITY FOODS

make them most desirable because every item packed under these brands is worth its price without exception.

Because of their sheer goodness these foods of quality are consumed to the last particle—there is no waste.

Sold by leading grocers in all sections of this country they have won favor with discriminating consumers.

The ever increasing use of Richelieu, Ferndell and Batavia Quality Foods by careful buyers is the best evidence of their unusual worth.

Laboratory Furniture

INSTRUCTOR'S DESK

This desk is designed for the smaller schools, where lack of space or appropriation will not permit larger and more expensive desks. It is appropriate for

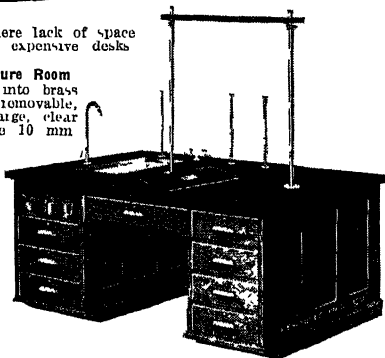

Physics or Chemistry Laboratory or the Lecture Room

The five nickel-plated vertical rods are screwed into brass plates, set flush in the table top. These rods are removable, and with the flush wood cover for the sink, a large, clear working surface is secured. The smaller rods are 10 mm diameter, used for building up ring stand supports, funnel and burette holders, etc. The larger rods, 19 mm diameter, support an adjustable wood crossbar, convenient for building up apparatus for various experiments.

Kewaunee Laboratory Furniture is always selected where the highest educational standards in class room equipment are observed. Ask for a copy of the Kewaunee Book. Address all inquiries to the factory at Kewaunee.

**CONTINENTAL
Special School Scale
(Model No 225)**

Ordinary scales no longer meet the service required today. With the Continental you can enjoy every worthwhile feature plus many patented exclusive advantages too numerous to mention here. Users are replacing less efficient makes with Continentals. Hundreds now in use.

Do not order a scale for school use until you have seen this special model.

Let us send you detailed information. We will tell you who your nearest dealer is. Write today.

Prang-

*the standard
in school water colors*

THE story of the devel-
opment of water color
work in the schools is
largely the story of Prang
School Water Colors.

Sixty-six years ago Louis
Prang produced the first
satisfactory and inexpensive
box of school water colors.
The name Prang at once
became the symbol of all
that was finest in school
water colors.

That it remains so today is
attested by the fact that
school boards of the large
cities are specifying "Prang
or equal."

Containing from ten to
twenty per cent more color
value than any others, these
colors never fail to blend
splendidly, making smooth,
brilliant and uniform
washes.

If you would prove the state-
ments of some of America's
leading color experts, that
"there have never been any
better school water colors
than those of Prang," we
will gladly send you a trial
box.

Where Do You Buy Your Groceries?

From our original field of activity, in the cluster of Mid-West states, viz., Illinois, Wisconsin, Indiana and Iowa, we have expanded until now there is hardly an Institution of learning, no matter of what denomination, between the Eastern Coast and the Rockies that we do not supply.

Our Patrons — and they are legion — know absolutely that the brands “Natural,” “Sunny” and “Barco” on a can or package mean perfection.

Our enviable success in this particular field has been brought about by the simple method of supplying quality products at attractive prices and paying the freight or express on all of our merchandise from Chicago to destination. Only selected vine or tree ripened fruit and unsurpassed vegetables, canned where grown, and packed in the most convenient and economical way for either dining room use or domestic science instruction are used.

All of our Jam, Jellies, and Preserves are compounded at our own plant, from choice ripe fruit and cane sugar.

We roast and blend all of our own coffee.

Zenith Safety Projector

WE offer this machine to you with confidence in its merits because of the many letters we have received from **SATISFIED CUSTOMERS**, some of whom write as follows:

"We sincerely believe it to be the finest machine of its kind on the market. We have used it continuously for months."

A pastor writes—"We are enthusiastic about it. It does everything you said it would, and even more."

A large Industrial Company writes—"Demonstration of the Zenith was made at 105 feet with very satisfactory results."

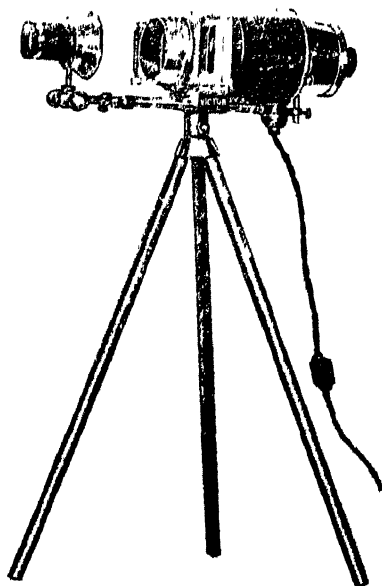

If you are at all interested in having motion pictures and want the best, you also want the best available machine to project them, we have it in the **ZENITH**. It is a machine of proven value.

Teaching from books, maps, or charts is dull at best. Too much brain energy is consumed before sufficient interest is aroused or attention given to the subject.

Motion Pictures Get Attention From the Start

Everyone readily understands a picture. Children are enthused, give closer attention, learn more rapidly and retain more thoroughly without exertion when taught through the medium of motion pictures. But if the picture flickers or is not sharp and bright, the eyes suffer and the highest educational value is lost. The American Projectoscope is equipped with a patented shutter which eliminates flicker and eyestrain and allows full concentration on the subject.

The American Projectoscope

"The Portable Motion Picture Projecting Machine Without An Apology"

This portable projector, the case measures 16 inches long by 7 inches wide by 18 inches high, is designed especially for Schools, Colleges, Churches, Clubs. As easy to operate as a phonograph. A school boy can do it. Built for wear and hard use. Made "error proof" no matter how or who runs it, the American Projectoscope won't get out of order.

Uses Standard size films, same as in the "movie houses" or the *American Safety* uses Safety Standard film, thus passing all restrictions and fire regulations, with the added feature that any section can be shown as a "still" as a stereopticon view. This is often desirable in technical study or for the purpose of discussion. Attach it to any electric light socket or to storage batteries.

TRAINING FREE

Interdenominational

"THE WEST POINT OF CHRISTIAN SERVICE"

THE OBJECT OF THE INSTITUTE is to give free training to men and women in the knowledge of the English Bible, Gospel Music, Personal Evangelism and Practical Methods of Christian Work, so they may become effective Bible teachers, Evangelists, Missionaries, Gospel Singers, Sunday-School and Mission Workers, etc. The course of the regular Day Classes covers two years, and had an enrollment in 1919-20 of 1,187.

THE EVENING CLASSES are now correlated with the Day Classes, and give a corresponding training and diploma. The full course covers four years. The enrollment for the year 1919-20 was 1,234.

THE CORRESPONDENCE DEPARTMENT is for the benefit of those who cannot attend the Institute classes in person, but desire to pursue systematic correspondence Bible study. Eight courses are given, viz.: Synthetic Bible Study, Bible Doctrine, Chapter Summary, Practical Christian Work, Evangelism, Christian Evidences, Introductory Bible Course, and the Scofield Bible Course. The total enrollment for 1919-20 was 7,514.

THE EXTENSION DEPARTMENT supplies Evangelists, Bible Teachers, and Gospel Singers for Churches and Missions, and conducts Bible conferences, Music Classes and Evangelistic meetings in all parts of the country.

THE MOODY BIBLE INSTITUTE MONTHLY, continuing The Christian Workers' Magazine, is devoted to Bible knowledge and interpretation, news and methods of world wide Christian work, editorial comment on current events and conditions; contending for the faith delivered once for all to the saints. Issued monthly, \$2.00 per year to any address. Rev. James M. Gray, D.D., editor.

VOCATIONAL GUIDANCE

Prepared by

JAMES MCKINNEY and A. M. SIMONS

This is the first practical work in the vocational guidance field. It is designed for class textbook or for individual analysis. The complete service embraces an analysis of the individual based on a 32 page personal analysis blank which seeks out his mental grade and experience, a 270 page volume dealing with an analysis of all the worth-while occupations, giving steps of promotion and roads between jobs, and a complete final statement in which the capabilities of the individual are paralleled to the needs of that particular job for which his natural talents best fit him.

ENDORSEMENTS BY MEN PROMINENT IN THIS FIELD

Geo. P. Hambricht, State Director of Wisconsin Board of Vocational Education: "You are making a real contribution for more successful and practical education. Your tables on pages 10, 16, 24 and 68 are as startling and realistic as newspaper headlines. It promises a mine of useful information. I am going to make a careful analysis of the book, and use such information as can be adapted to our vocational school system in this state."

Frank M. Leavitt, Associate Superintendent of Pittsburgh Public Schools: "Your attempt to reach the individual is wholly praiseworthy, and it seems to me, ought to be extremely effective."

John M. Brewer, Graduate School of Education, Harvard University: "I am very much interested in this attention to vocational guidance on the part of your school, and the American School is certainly a pioneer in making such a definite and useful investment in the field. I am calling the attention of my students to this book."

K. G. Smith, Michigan State Supervisor of Industrial Education: "I should like to see such an analysis used for classifying students in night school classes and in a modified form for other kinds of educational work."

Wm. J. Bogen, Principal, The Lane Technical School: "I have read 'Success Through Vocational Guidance' with a great deal of interest for I have felt for a long time the need for a book of this type that might be used as a text in technical and vocational high school."

Ira S. Griffith, Department of Manual Arts, University of Wisconsin: "As you already know, I am in thorough sympathy with the work you have undertaken. I have read the occupational analysis of some of the types, of which I am familiar. I found these very direct, giving the chief points which one needs to know for purposes of making reasonable choice of vocation. I can readily believe that the treatment for the rest of the occupations is equally as valuable. I congratulate you on the piece of work you have done."

Emery Filbey, Dept. Industrial Education, The University of Chicago: "I have read 'Success Through Vocational Guidance' with a great deal of interest. The book and the personal analysis service which goes with it should afford a splendid background for choice of an occupation as well as choice of desirable training for the kind of work selected. In making available in this compact and usable form a wide range of information which can be used as a basis for careful study and personal appraisal by students contemplating correspondence study, you have made an important contribution to the vocational guidance movement. In addition to use through correspondence study this book should also be used for class reference and for general library purposes."

The complete service of "Success Through Vocational Guidance" costs \$5.00 the 270 page book, "Occupational Analysis," alone costs \$2.00. We shall be glad to send you either the complete service or the book alone upon receipt of your check or money order. Special quantity prices are given to schools and colleges.
